

Shannon Hunt-Scott

President, The Scott Foundation

For the past 10 years, Shannon has made philanthropic work the heart of what she does, dedicating her time and energy to governing and volunteering for organizations focused on educational equity, social entrepreneurship, and social impact causes.

As The Scott Foundation's Co-Founder and President, Shannon sets the foundation's strategy and goals. She leads grant funding decisions and builds strategic partnerships with other foundations and agencies.

In addition to her deep commitment to The Scott Foundation, Shannon proudly serves as the board chair for Educare California at Silicon Valley, a Trustee for Hillbrook School, and a board member for The Tech Museum of Innovation (where she is especially excited to provide leadership on the Tech for Global Good committee). Recently, she has extended her impact to the national scale, joining the board of NARAL Pro-Choice America. The breadth of her philanthropic work has also included serving on the board of Breakthrough Silicon Valley and on the fundraising committees for Planned Parenthood Mar Monte and NARAL Pro-Choice America.
